

Precious metal symbols, like miniature sculptures of gold and silver, have a compelling yet indefinable quality. Emblems with sparkling gemstones, contrasting polished and frosted surfaces or antique finishes enhance these custom creations casting the spotlight on the worthy recipients.

Die Struck Precious Metal Emblems

The ultimate face of modern recognition and achievement. These emblems offer an alluring diversity of design alternatives enhanced with seductively tactile gems, interest-generating contrasting surfaces and shimmering polished or detailed antique finishing. The creations serve as a vivid representation of the value the organization places on the individual and their successful actions.

Cast Precious Metal Emblems

The experts' choice for sculpted, three-dimensional, precious metal designs or creations calling for multiple and/or intricate open spaces (piercings). The design intricacy is accentuated with polished highlights or a detail-framing polished antique finish.
