To My Friends at E. A. Dion, Inc.

In partnering with your company since 1980, I can emphatically state that E. A. Dion, Inc. is the finest company that I work with in the recognition industry. Your attention to detail, exceptional design and outstanding service and delivery, in my opinion, makes Dion stand-alone above all other manufactures in the emblematic jewelry business.

In addition, the professionalism, the positive attitude and the wonderful partnership that I have experienced from Dion's management through sales and production employees is something very rare in business today. The "Can Do" attitude is exceptional! Your goal, as mine, is to be the best at fulfilling our customers' needs by giving them exceptional products that meet their needs on a timely basis and I can't think of a situation where we have not delivered on our promises, no matter how difficult the challenge. I think that the true testament to our successful partnership is that many of our customers from 1980 are still our customers today. I think that says it all.

Thank You,

Ed Naber

President

Art of Achievement, Inc.
