

E.A. Dion, Inc.
Environmental Statement
December, 2014

E. A. Dion, Inc. is dedicated to protecting our environment and the efficient use of resources. Environmental consideration is evident in our manufacturing facility and our daily activities. We are committed to minimizing the environmental impact of business operations through process and equipment such as:

- Energy efficient lighting and activity-based lighting switches
- High efficiency air compressors
- Closed-loop plating systems, where all processed water is recycled and no water is released into the environment.
- Paper recycling program
- Use of biodegradable packaging in all our shipping containers
- Manufacturing processes that minimize waste and other pollution
- Conducting business operations in compliance with all government and industry environmental standards
