To Whom It May Concern,

Mary Kay Inc. has been very pleased to be in partnership with E.A. Dion for over 20 years.

During this time, Mary Kay has had the opportunity to utilize all the different services that Dion has to offer. Their highly experienced creative team has allowed us to commission many custom and very intricate designs. Dion is clearly in a class by themselves when it comes to translating and executing a design on paper, into an attractive and functioning piece of jewelry, whether it is emblematic or otherwise.

Ted Dion and his team offer Mary Kay, what has become a rare brand of high quality service!

They deliver "big company" quality service, with small company attention to detail.

Having direct contact with the key company areas that specialize in the different areas of design execution, manufacturing and Q.C., allows for the best communication to ensure that projects are accomplished efficiently and successfully.

On numerous occasions, Dion has stepped up to the plate and delivered special projects with very challenging deadlines given to them. Their dependability, level of personal service, attention to detail and quality, has proven to be their standard mode of doing business.

Dion is also able to offer offshore competitive pricing, while still overseeing quality and on-time delivery.

They make my job so easy when it comes to doing business with them!

Sheila Pratt G. G. GIA, Jewelry Buyer
