September 8, 2016

To Whom It May Concern:

We started using E.A. Dion several years ago for the 10 year Safe Driver and Safe Worker rings for employees of a Fortune 100 Company.....moving them from another vendor. We couldn't have been more pleased with our choice! We never have to wonder when the orders will ship as the timing is always consistent. The orders are sent, we sit back and all is meticulously and perfectly handled. And, of course, the quality of the product matches the service. In addition, communication is excellent as Dion has acquired employees who are not only professional but just plain nice people.

Sincerely,

Jim Gallagher

President
