

September 21, 2016

As part of a large Years of Service and Awards distributor we work with all types of manufacturers and suppliers. E.A. Dion is more than a supplier, they are our partner. The sales department is supportive and responsive. Dion has exceeded our expectations for design and production. We've come to rely on E.A. Dion for direction and support with all our precious metal projects. Dion treats us like family. They're available for any project, small or large, that we bring to them.

Sincerely,

*Betsy Kirby*  
*Director of Sales*
