Subject: Start Now on Your Customer's Milestone Anniversary Commemoratives

Dion DIGEST

Creative Jewelry Solutions for Recognition, Promotion and Motivation

June 2019 Issue

Anniversaries are a Special Time Start Now Planning for Your Customer's Milestone Anniversary

There are not many things you can depend on regarding your clients. However, one that you can is that they will all have milestone anniversaries to celebrate at some point. Don't let time get away from you. 2020 is coming sooner than you think. Start planning early so you really make the most of the occasion.

Milestone anniversaries are generally every five years. Whether celebrating their 5th or 100th anniversary, reaching a milestone anniversary is a major achievement in today's business environment. It gives companies a chance to brag to customers about their longevity and stability. It is also a great way to establish employee camaraderie and bring a company closer together. It also generally comes with a special budget for celebrations, gifts and give-aways!

Dion has put together an end user friendly sheet that you can give to your customers with a number of ways companies can celebrate and commemorate this very special time.

So, look up the founding dates of all of your clients and talk with your Dion Account Manager. We can give you artwork and samples to show your customers what other companies are doing (and what your client should be doing too!). We can then put together designs with their

logo on them of promotional items for customers and vendors, executive gifts for board members and top accounts, as well as employee commemoratives to present at their anniversary party or holiday gathering.

Team Dion Diamonds Once Again a Top Team in the Greater Attleboro Relay for Life

The 2019 Team Dion Diamonds - our employee sponsored Relay for Life Team - was ranked in the top 10 for fundraising efforts in the Greater Attleboro Area Relay for Life Event. This is Dion's 5th year sponsoring a team and each year just seems to get better and better!

On Friday and Saturday, June 14-15, Dion employees and their families walked the track at Norton High School to emphasize the fight against cancer, which culminated this year's fundraising efforts. Relay for Life is a fundraising arm of the American Cancer Society. As a company, Dion has been touched by cancer - with it affecting several employees and family members as well. We feel strongly about the need to support the important works of the American Cancer Society and the Relay for Life allows us to do so.

Flag Day Celebration at E.A. Dion

A proud tradition we celebrate each year here at Dion is Flag Day on June 14th. Everyone meets in front of the building for a flag raising ceremony and short speech from Dennis Dion, Co-Owner and Sr. VP of Operations, followed by an ice cream party.

Helping Dennis raise the flag this year was Fabio Salas, who attained his U.S. citizenship just this past year. We are a lucky company to often have new citizens to celebrate and honor with the raising of the red, white and blue! Join us in congratulating Fabio and all the new US citizens in 2019.
